ELECTRICAL

SOLUTIONS FOR ALL ELECTRICAL INFRASTRUCTURE

We provide comprehensive solutions to industry for all Low Voltage, Medium Voltage and Drive Systems. Once an on-site audit is conducted we will provide you with a Customised Engineered Solution.

Let us help you keep your production running efficiently and effectively:

- Power Quality solutions
- Metering Solutions
- Switchboard Design and Manufacture
- Product Selection for Application
- Load Shedding Solutions
- Safety and Compliance with Regulation
- Improvement of Energy Efficiency

LIGHTING

GUARANTEED LIGHTING SOLUTIONS

We are a team of inspired professionals who engineer value-packed lighting solutions. With an in-house laboratory, for product testing, and our team of experienced lighting engineers we are confident in our product selection. We proudly represent locally manufactured, proudly SA fittings as well as leading international lighting brands.

Our Lighting solutions offer includes:

- Audit, Design and Installation
- Guaranteed Energy Saving Calculations
- Return of Investment calculations
- Guaranteed Product Life Expectancy
- Financial Solutions (project funding)

SOLAR

SPECIALISED SOLAR PV SOLUTIONS

As a team of engineers we are well equipped to design specialised, bespoke solar solutions which offer guaranteed system performance. This renewable energy source will assist in the reduction and cost of energy, as well as maintain stable electrical supply.

Our Solar offer includes:

- Grid Tied Solar PV
- Hybrid Solar
- Off Grid Solar Systems
